

Smooth Foot Soak

Smooth Foot Soak creates a bubbly effect while softening the water and relieving tired feet, leaving them feeling silky and smelling heavenly.

Sit back, relax, and breathe in the aromatherapy!

To complete the experience, towel dry, and finish with Smooth Foot Balm for a super luxurious result.

Ingredients: Sodium Bicarbonate, Citric Acid Anhydrous Powder, Piperita Mentha (Peppermint), Lavandula angustifolia (Lavender), Eucalyptus radiata (Eucalyptus), and Citrus limonum (Lemon) 100% pure essential oils.

Directions: Add two scoops to a foot bath already filled with warm water, and soak. Towel dry.

Soft & Sensitive Soap

Daily cleansing soap for baby or sensitive skin.

Soft & Sensitive Soap is a gentle skin cleanser, with a mild lather. It is a low irritant soap with a low mild citrus aroma.

Ingredients: Saponified Cocos nucifera, Elaeis guineensis, Ricinus communis, Carthamus tinctorius, vegetable Glycerin, fresh Goats milk, purified water, Sorbitol, Sorbitan oleate, Soybean

protein, Titanium dioxide, Calendula officinalis extract, and Citrus reticulata (Mandarin) 100% pure essential oil.

Tea Light Aromatherapy Candle 6 Pack

Our natural soy wax tea lights in can be made to order or are available in all of EDA's popular essential oil blends, as follows:

- Aphrodite
- Awakening
- Beautiful
- Relax Me
- Serenity
- Vitality
- Wellbeing

EDA tea light candles are made using natural soy wax and pure essential oils only, no artificial fragrances, meaning they are natural.

Why do we use soy wax?

Because the wax is made from soy beans and is non toxic, biodegradable and can be easily cleaned up.

And if you know EDA and what we strive to do, pure essential oils are the only scents we use for their ultimate 'aromatherapeutic' benefits.

Soy wax candles can burn up to 50% longer than paraffin wax candles, and if cared for correctly will not create the black smoke, soot and other nasties that paraffin wax, derived from petroleum, coal or oil shale, does.

The first time you burn your EDA Natural Soy Wax Candle, allow the candle to burn long enough for the hot liquid to cover the top of the candle right to the edges. This enables the candle to burn evenly for its life rather than burn a hollow in the middle of the candle.

For the maximum life and quality of your candle trim the wick prior to each time you light it. The wick should be approximately 5mm long ... if too long the candle will burn quicker and may create smoke.

Even though our containers have a hollow at the bottom to avoid heat damage to surfaces the container will become hot so it is always a good idea to make sure you have the candle on a heat proof surface. Coasters are perfect for this.

Never leave your candle in reach of children or pets while hot.

Never leave your candle unattended whilst lit.

When you extinguish your candle do not move it until the wax has hardened and turned opaque to preserve the look and quality of the burn.

Soy wax also burns cooler than most other waxes, making it more child and pet friendly. That is not to say you should keep your heated melts or any melted candle within reach of children or pets because they still contain heat and should be kept out of their reach.

Soy wax can also be easily cleaned up using just warm soapy water, so spills are easy to manage.

Each set of EDA Natural Tea Light Candles come in a six pack. There are six tea lights per set and hold one scent or blend per set.

[Tranquil Angel Bath Salts](#)

Dead Sea salts are also known to be helpful with common skin disorders like acne, psoriasis, dermatitis, eczema and dandruff.

Acne, probably the most common skin disorder of all, especially amongst 80-90% of adolescents, responds well to Dead Sea salt due to its high sulphur content. Sulphur is a powerful cleanser that has been proven to treat acne effectively.

Dead Sea salts are also a wonderful treatment for dry skin, as they nourish the skin and replenish moisture.

The high magnesium and bromide content in Dead Sea Salt is beneficial as an anti allergic due to its cleansing and detoxifying of the skin. Soaking in a bath filled with the mineral-rich salt a wonderful way to treat skin allergies and rashes. The minerals also moisturize, detoxify and soften the skin and enhance relaxation of the body - making us not only look but feel younger.

This product is made using pure, natural and organic ingredients that are kind and gentle to your skin, giving your complexion all the benefits of nature.

Ingredients: Sodium bicarbonate, Magnesium sulphate, Dead Sea salt, Lavandula angustifolia (Lavender), Cananga odorata (Ylang Ylang), Citrus sinensis (Sweet Orange), Pelargonium graveolens (Rose Geranium), Boswellia carteri (Frankincense) 100% pure essential oils and natural colour.

Directions: Add approximately a ¼ cup of the bath salts to a warm bath while running the water. Swirl around to dissolve the salts in the water. Step into the bath and relax, taking in all the aromatic and mineral benefits and allow yourself to be uplifted.

Like all Earth Dew Angel products, EDA's Tranquil Angel Bath Salts are made using pure, natural and organic ingredients so store in a cool place, and avoid direct sunlight to avoid spoiling.
