

## **Why You Should Use A Cleanser**

According to Rona Berg, in her book, "Beauty," a French cosmetics executive once told her, "Soap should only ever touch your skin from the neck down."

***AND WE AGREE!***

### **Avoid bar soaps as they tend to dry out the skin....**

You can either simply apply your cleanser, then wipe off, no water needed (if you have hard water it can be especially harsh on skin).

Some people prefer the water method which is fine, however you should never wash your face with hot or cold water because both can cause broken capillaries.

Use warm water to loosen dirt and clogged pores. Use a bit of cleanser (about enough to cover a five cent piece), then rinse with cool (not cold) or lukewarm (not hot) water.

In the morning, a splash of lukewarm water is all you need (we find it's great for removing excess oils from your nightly moisturising).

And why not try Aromacleanse Gel?

Aromacleanse Gel combines not only the healing and detoxifying wonders of Aloe Vera Gel, which holds 20-22% of the essential amino acids for the skin, but also includes the nourishing oils of Jojoba (rich in Vitamin E and very close composition to the skin's sebum) and Camellia (high in oleic acid and rich in Vitamins A, B, and E). Further enhanced by the high vitamin C and light Alpha Hydroxy Acid (AHA) benefits of Quandong herbal extract, and the amazing anti-inflammatory properties of Vegelane to provide an even more powerful yet gentle cleanser that is beneficial for all skin types.

Couple this with the wonderful aromatherapeutic benefits brought to the mix by Petitgrain, Manuka and Rosewood 100% pure essential oils and you have a cleanser that does much more than cleanse! While cleansing it detoxifies, heals, feeds and enhances the skin to ensure you have a truly all round Earth Dew Angel experience.

**It is an angelic experience designed to soothe any soul!**
